

School Health Programs – Site Tours (for secondary school students)

Ballarat Community Health Centre offers site tours and information sessions to secondary school students in years 9 - 12. These learning opportunities provide students with the ability to familiarize themselves with Ballarat Community Health Centre and the services that are available to them and/or other members of the wider community.

Alternatively, Ballarat Community Health Centre can assist with guest speakers, flyers or other factual information to support your school in providing information about our services.

As research highlights the benefits of providing education in a holistic way, Ballarat Community Health Centre provides this program together with teachers and in line with VELs outcomes. This creates a supportive teaching and learning environment that can continue to be built upon beyond Ballarat Community Health Centre's involvement.

Ballarat Community Health Centre provides opportunities for further support for parents, students and the wider community through the many services that we offer such as health promotion, community health nursing, various clinics, dietary counselling, podiatry, exercise and fitness programs, counselling services, alcohol and other drug services, mental health services and youth housing.

For further information about Ballarat Community Health Centre please click [here](#).

Please contact Demelza on (03) 5338 4500 or by email at demelzar@bchc.org.au to register your interest in this or any other school opportunities for 2009.

Please note that Ballarat Community Health Centre staff require a minimum of four weeks notice when working in schools.

Secondary school site tours are primarily provided at our Sturt St site.
