

## **School Health Programs – Site Tours (for secondary school students)**

Ballarat Community Health offers site tours and information sessions to secondary school students in years 9 - 12. These learning opportunities provide students with the ability to familiarise themselves with Ballarat Community Health and the services that are available to them and/or other members of the wider community.

Alternatively, Ballarat Community Health can assist with guest speakers, flyers or other factual information to support your school in providing information about our services. As research highlights the benefits of providing education in a holistic way, Ballarat Community Health provides this program together with teachers and in line with VELS outcomes. This creates a supportive teaching and learning environment that can continue to be built upon beyond Ballarat Community Health's involvement.

Ballarat Community Health provides opportunities for further support for parents, students and the wider community through the many services that we offer such as health promotion, community health nursing, various clinics, dietary counselling, podiatry, exercise and fitness programs, counselling services, alcohol and other drug services, mental health services and youth housing.

Please contact Demelza on (03) 5338 4500 or by email at [demelzar@bchc.org.au](mailto:demelzar@bchc.org.au) to register your interest in this or any other school opportunities.

**Secondary school site tours are primarily provided at our Sturt Street site.**

**Please note that Ballarat Community Health staff require a minimum of four weeks notice when working in schools.**
