

WRAPs

- a group program
for Women Responding to Abuse by Partners
[or other family members]

What is family violence?
Why does it happen?
Can women stop it?
What about the men?
Will he stop it?
What about the children?
How do women cope?

The 8 week program is held on a regular basis throughout the year,
during school terms as demand indicates,
and provides an opportunity for a small group of women to explore
these questions while hearing other peoples stories and sharing theirs.

Participants may be:
still be in the relationship,
no longer partnered, or
in a new relationship.

This program has been developed by workers from BCHC and WRISC,
and is jointly facilitated by the two agencies.

Safety is always an overriding consideration.
