**Professional &
affordable foot care**
for all ages

Podiatry: The next step to a healthier you!

What is a Podiatrist?

A Podiatrist is a health professional who deals with the prevention, diagnosis, treatment and rehabilitation of medical and surgical conditions of the feet and lower limbs.

How we can help you!

- Foot and leg pain should not be a part of your daily life and can often restrict a person's mobility and good health.
- Foot and leg alignment can have a significant effect on the development of painful problems during sport, at work or in daily life.
- Foot health care begins at any age, the earlier the better! Early detection and management in babies and children can help reduce foot problems in later life.

What we offer:

Ballarat Community Health Centre Podiatrists are located at our **Wendouree** and **Sebastopol** sites. The service is prioritised to individuals on a healthcare card or pension.

- **Gait analysis/orthoses**
- **Diabetic care & assessments**
- **General treatment**
- **Ingrown toenails / nail surgery**
- **Footwear advice**
- **Educational programs**

We pride ourselves on providing quality foot care and education to our clients.

We provide educational talks to community groups on a range of podiatric issues.
